EXTENSION REQUEST FOR RESPONSE TO THE REGULATORY AGENCIES' COMMENTS ON STANDARD OPERATING PROCEDURES (SOPs) - NMH-505-93

J. K. Hartman Itr (10206) to N. M. Hutchins, Environmental Protection Agency and Colorado Ref: Department of Health Comments on Standard Operating Procedures

This letter is a request to extend the due date for response to the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA) comments on the Standard Operating Procedures (SOPs) GT.08 and the Revised GT.08 document. This request is for one week which would extend the due date to October 8, 1993. This extension is necessary to verify changes to the SOP as it relates to the Industrial Area (IA) Operable Units (OUs). Several approved OU Work Plans reference GT.08 and Technical Memorandum No. 5 for Operable Unit (OU) 1 which may present inconsistent direction for soil sampling. This issue needs to be resolved.

In addition, a Document Modification Request (DMR) made changes to the current data recording form this week. This form needs to be incorporated into this revision of GT.08. According to Document Control, the new form will be available on October 6, 1993.

A draft of the Response to EPA and CDH comments and the latest version of GT.08 has been given to B. K. Thatcher of the Department of Energy, Rocky Flats Office. If you have any questions or require additional information regarding this matter, please contact M. F. McHugh of Remediation Project Management at extension 8624.
